

Help Organize the Day of Intersex Activism in 2004 and beyond.

We are a group of intersex activists and allies who are planning to organize a **day of grass-roots action** in support of our goal of ending shame, secrecy and unnecessary and unwanted medical procedures. We envision this "day" to be similar to such annual events as Take Back the Night, Pride celebration, International Women's Day, and National Coming Out Day. We need your support and participation regardless of where you are! Visit **www.intersex-awareness-day.org** to find out what you can do to help organize the event in your area!

intersex-awareness-day.org is an independent project open to everyone, and is endorsed by Bodies Like Ours, Intersex Initiative (ipdx), and Intersex Society of North America (ISNA).
